DETAILED ACTION

Status of the Application

Receipt of the Response after Non-Final Office Action, the Amendment and Applicant's Arguments/Remarks, all filed 06/18/07 is acknowledged.

Claims 1 and 32-58 are pending in this action. Claim 1 has been amended. Claims 2-31 have been cancelled by Applicant's amendment filed 6/18/07. Claims 32-58 have been cancelled herein by Examiner's Amendment. Claim 1 is allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harvey L. Cohen on 09/10/07.

The application has been amended as follows:

In the Claims:

In claim 1, lines 5-6, the limitation "*about 0.02 to about 2.0 parts by weight of tryptophan*" has been **deleted**.

In claim 1, line 10, the limitation "*understood to be*" has been **deleted**.

Claims 32-58 have been cancelled.

Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance is that the prior art does not disclose nor fairly suggest a method of treating a mammal as claimed comprising the instant ingredients in the instantly claimed amounts, formulated for the purpose claimed by Applicant. The prior art does not disclose or teach the specific list of components for treating a mammal as claimed by Applicant in the specific amounts recited by Applicant. Thus, the instant invention deemed novel and non-obvious over the cited art of record.

In the Non-Final Office Action filed 04/20/07, claim 2 was indicated as objected to as dependent on a rejected base claim, but would be allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims. In the response filed 06/18/07, Applicant has adopted the suggestions proposed by the Examiner and has amended claim 1 to incorporate the allowable limitations of dependent claim 2, rendering the application in condition for allowance. Additionally, via a telephonic interview held 09/10/07 between Applicant's representative (Harvey Cohen) and myself (Examiner Sheikh), Applicant's representative authorized claim amendments overcoming any possible 112-2nd paragraph indefinite issues. Furthermore, the judicially created obviousness-type double patenting rejections have been withdrawn, by virtue of Applicant's claim amendment, which amply distinguishes over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
